# NEWSLETTER

**September 16 through 30, 2001**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **September 16 through 30, 2001**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Kids, choose a class energy monitor who will ensure energy conservation. You can pick a new monitor each week! The energy monitor will turn off lights when no one is in the room, such as during recess or after class.

# CEQA & Planning Case Law

## **Summary of Recent CEQA & Planning Case Law**

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No cases have been selected for the period of September 16-30, 2001.**

# Federal Notices

## Intergovernmental Review Notices (September 16<sup>th</sup> – 30<sup>th</sup>, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**Agency:** Federal Energy Regulatory Commission  
**Contact:** David Boergers  
**Telephone:** (202) 208-2474  
**E-mail:** N/A  
**Address:** 888 First St. N.E., Room 1A, Washington D.C. 20426  
**Description:** On September 7, 2001, The FERC wrote a letter to the El Dorado Irrigation District (EID) regarding the status of environmental studies conducted pursuant to the relicensing of the El Dorado Project (P-184) during the calendar year 2000. This letter requests that the EID obtain and file these environmental study results with the FERC within 15 days from the date of this letter to avoid unacceptable delays in the licensing process.

**Agency:** United States Army Corps of Engineers  
**Contact:** Bruce Henderson  
**Telephone:** (805) 585-2145  
**E-mail:** [Bruce.A.Henderson@usace.army.mil](mailto:Bruce.A.Henderson@usace.army.mil)  
**Address:** U.S. Army Corps of Engineers, Los Angeles District, Regulatory Branch – Ventura Field Office, ATTN: CESPL-CO-RN-200101332-BAH, 2151 Alessandro Drive, Suite 110, Ventura, CA 93001  
**Description:** The U.S. Corps of Engineers issued a public notice of an application for permit (No. 200101332-BAH) by the City of Los Angeles Department of Water and Power for the Dust Control Measures Project on Owens Lake playa. The Project proposes implementation of managed vegetation, shallow flooding, and gravel cover Dust Control Measures on approximately 19 square miles of Owens Dry Lake. The Project is located near the communities of Olancha and Cartago, Inyo County, California.

**Address:** 888 First Street, N.E., Washington, DC 20426

**Description:** On September 13, 2001, the FERC issued a Notice of Application tendered for filing with the Commission, soliciting additional study requests, and establishing procedures for relicensing and a deadline for submission of final amendments to Southern California Edison (SCE) for the Vermillion Valley Project (No. 2086-035). This project is located on Mono Creek in Fresno County and consists of a 3 kW Pelton-wheel turbine located in the outlet structure used to recharge batteries in the valve house. The hydroelectric application filed on August 30, 2001 by SCE for this Project is available for public inspection.

**Contact:** David Boergers

**Telephone:** (202) 208-2474

**E-mail:** N/A

**Address:** 888 First St. N.E., Room 1A, Washington D.C. 20426

**Description:** On September 12, 2001, the FERC issued an order denying a rehearing applied for by the Appalachian Group. On July 13, 2001, the Commission denied a joint motion for credits to their future annual charge bills for payments the Appalachian Group made in 1997 and 1998. The payments covered the costs of administering Part 1 of the Federal Power Act by federal agencies other than the Commission. The Appalachian Group has advanced no arguments that cause the Commission to revisit their determination, thus the motion for request for rehearing is denied.

**Description:** On September 13, 2001, the Commission issued a notice redesignating proceeding for numerous projects involving 2001 administrative annual charges bills to licensees for hydroelectric projects licensed by the Commission. The Fiscal Year (FY) 2001 annual charges bills for licensees who appealed their FY 1999 and FY 2000 annual charges bills with respect to administrative costs related to the administration of Part I of the Federal Power Act by other federal agencies (OFAs) include credits for OFA costs disallowed from the FY 1999 and FY 2000 annual charges bills pursuant to certain prior Commission orders. The pleading will be treated as an appeal of the FY 2001 annual charges bills, as provided for in Section 11.20 of the Commission's regulations, 18 CFR 11.20, with respect to administrative annual charges.

**Description:** On September 14, 2001, the Office of Energy Projects wrote a letter to Public Utility District No. 2 of Grant County regarding the Priest Rapids Hydroelectric Project (No. 2114-091). On August 16, 2001, Grant County filed a letter informing the Commission that it was withdrawing its motion for expedited action because it had determined that it had met the summer spill flow program obligations under the Commission's May 25, 1994, Interim Spill Order. Therefore, Grant County terminated the spill program for the season. No further action by the Commission on suspending summer spill flows at the Priest Rapids Project is needed.

<b>Description:</b>	On September 20, 2001, the Commission issued a notice of availability of a Final Environmental Assessment for Pacific Gas and Electric Project No. 2661-012. The Office of Energy Projects staff has reviewed the application for a new license for the Hat Creek Hydroelectric Project located on Hat Creek, near the town of Cassel, Shasta County. On August 29, 2000, the Commission staff issued a draft EA for the project, and requested that comments be filed. Comments were filed by seven entities and are addressed in this final EA for this project.

<b><u>Documents Received on Monday, September 17, 2001</u></b>			
2000021024	Tracy Development San Bernardino County Land Use Services Department Rancho Cucamonga--San Bernardino Tentative Tract Map 1479 and Preliminary/Final Development Plan for 265 units on 168.8 gross acres with minimum lot size of 7,200 square feet. Project would rezone land to match existing floodway limits and power line (institutional) easements. Project includes a 12-acre community park with ballfields and 8 acres of open space/paseos. Ballfields are not proposed to be lighted at present but may be lighted in the future. Project includes formation of a Mello Roos community Facilities District and a Landscape Maintenance District.	<b>EIR</b>	10/31/2001
2001042089	San Joaquin Council of Government Regional Transportation Plan DEIR 2001-2025 San Joaquin County Council of Governments --San Joaquin Programmatic Regional Transportation Plan 2001-2025	<b>EIR</b>	10/31/2001
2001061032	Norwalk Redevelopment Project Area 3 Norwalk, City of Norwalk--Los Angeles The Project involves the adoption of a proposed Redevelopment Plan for Norwalk Redevelopment Project Area No. 3, and amendment of the two (2) existing Redevelopment Plans for the two existing project areas to extend certain time limits, and the merger of all three project areas. Although no development or construction is proposed at this time, the continued implementation of the existing Redevelopment Plan, is expected to facilitate commercial, industrial/manufacturing and residential development in the Project Areas in conformance with the Norwalk General Plan, to address various environmental issues, and to mitigate existing public infrastructure system deficiencies. The primary purpose of the Redevelopment Plans continue to be the elimination of physical and economic blighting conditions that hinder the full development of the Project Areas.	<b>EIR</b>	10/31/2001
2001094005	Baja California Power and Semptra Energy Resource Public Utilities Commission El Centro--Imperial Baja California Power and Semptra Energy Resources each propose to construct double-circuit 230-kV transmission facilities from new merchant powerplants being constructed in Mexico, across the US/MX border, and continue 6 miles to SDG&E's Imperial Valley Substation, paralleling SDG&E's existing international transmission line. Inside the US, the proposed facilities would be constructed wholly within land under the control of the US Bureau of Land Management. The proposed projects will tie the new merchant powerplants to the Southern California electrical system.	<b>JD</b>	10/16/2001

<b><u>Documents Received on Monday, September 17, 2001</u></b>			
2001092059	Kapalua Estates Elk Grove, City of Elk Grove--Sacramento The project is a proposal to subdivide one parcel 54.68 acres in size into 54 one-acre residential lots. In order to accomplish this, the applicant must obtain City Council approval of the Elk Grove Community Plan Amendment and Rezone from AR-10 and AR-5 to AR-1. A Special Development Permit is required to allow private streets.	<b>NOI</b>	10/16/2001
2001091079	North Yorba Linda Estates Yorba Linda, City of Yorba Linda--Orange Construction of up to 694 single family dwelling units on three parcels totaling approximately 15990.5 acres.	<b>NOP</b>	10/16/2001
2001091085	Creekside Center Arroyo Grande, City of Arroyo Grande--San Luis Obispo The proposed project is to reconfigure 37 underlying lots into five (5) parcels and to develop a commercial retail, office and residential complex. The project site is located on the northwest corner of East Branch Street and Crown Terrace and is approximately 3.5 acres in size (reference Attachment). The E.C. Loomis & Son Feed Store and other miscellaneous structures currently occupy the site. The project includes constructing approximately 35,000 square feet of commercial retail, office and residential space located in five (5) separate one and two-story buildings. The applicant intends to retain and enhance an existing office building, relocate the Loomis residence off of the project site and remove the E.C. Loomis & Son Feed Store.	<b>NOP</b>	10/16/2001
2001092061	Pacific Lumber Company Barn II Quarry Humboldt County Planning Department Eureka--Humboldt A Conditional Use Permit, Surface Mining Permit, Reclamation Plan and review of financial assurance cost estimates for a surface mining operation involving an upland rock quarry with a proposed total extraction of 500,000 cubic yards of aggregate material over an expected life of 15 years. Up to 80,000 cubic yards of material will be extracted per year. Usable rock sizes will range from large boulders (1/4, 1/2, 1-ton and heavier rock for use as riprap and jetty rock) to crushed aggregate of various dimensions.	<b>NOP</b>	10/16/2001
2001092062	1420-1450 Howard Avenue and 249 Primrose Road-Burlingame Safeway Burlingame, City of Burlingame--San Mateo The proposed project includes demolition of three existing structures on the site (Safeway, Walgreens, and Wells Fargo Bank), and development of a combined Safeway, Walgreens, Wells Fargo Bank, and various small retail shops within one structure on the property. In total, 55,179 sf of commercial structures would be demolished and a new commercial structure (consisting of a 16,600 sf Walgreens, a 53,147 sf Safeway and ancillary retail shops) would be constructed, resulting in a net addition of 14,568 sf of new commercial space to the site. The total new building area would be 69,747 sf. In order to facilitate the proposed project, the five Safeway-owned parcels and two city-owned parcels now used as public	<b>NOP</b>	10/16/2001

	parking lots (27,237 sf and 7,048 sf) would be consolidated and reconfigured within the project site and a 34,285 sf city parking lot created. A portion of the combined site would require rezoning from R-3 and C-1, Subarea A to C-1, Subarea B of the Burlingame Avenue Commercial District, in order to create one zoning designated for the project site. In addition, the proposed project include the construction of a new stormwater junction structure and stormdrain within the project site.		
2001092064	Sutter 99 Safety and Operational Improvement Project Transportation Commission Yuba City--Sutter The project proposes to upgrade State Route (SR) 99 to a 4-lane facility with continuous median and left-turn lane from the SR70/99 junction to Sacramento Ave, and upgrade to conventional highway or expressway standards between Central Avenue (KP 27.0/PM16.8) and O'Bannion Road. In addition, the project provides for a new two-lane bridge on the East side of and adjacent to existing Feather River Bridge # 18-26.	<b>NOP</b>	10/16/2001
2001092065	Tokay High School Football Field Lighting System Lodi Unified School District Lodi--San Joaquin The proposed project involves the installation and use of a football field lighting system for the existing football field at Tokay High School 1111 West Century Blvd. Lodi, California 95240. The lighting system would consist of four sets of 10 fixtures mounted on wooden poles. The proposed lighting system is designed to provide illumination of the football field area at about 30 foot-candles. Electrical supply for the proposed project would be derived from existing electrical load centers on the Tokay High campus. Minor improvements to these facilities would be necessary in conjunction with the project.	<b>NOP</b>	10/16/2001

	terminus of the Botanical Garden tributary, immediately south of Visitors Parking lot 10; 4) Improvements within an approximately 1,100 foot long section of the main campus open channel along the south side of Big Springs Road, from Valencia Hill Drive westerly to just past the driveway entrance to Parking Lot 13. The existing channel will be cleared, regraded and revegetated with native plants; and 5) Modification to the Gage Basin outlet structure at the I- 215 Freeway, northerly of University Avenue, to reduce peak outflows to volumes within the capacity of the City's downstream storm drain facilities.		
2001091067	Central and Chicago Apartments Riverside, Planning Department, City of Riverside--Riverside The applicant is proposing to amend the General Plan land use designation of the subject property from RMH-- Medium High Density Residential, RAR -- Agriculture and Rural Residential and PFI--Public Facilities and Institutions to RHD-- High Density Residential. In addition, they also are proposing to amend the Municipal Code (Title 19) to rezone the subject property from the R-1-80--Single Family Residential and O- Official Zones to the R-3-30- Multi-family Residential Zone. The proposed General Plan Amendment and rezoning is to facilitate the applicant's proposal to establish a 112 unit planned residential development with 26 one bedroom units, 60 two bedroom units, and 26 three bedroom units, together with parking, private and common open space. The subject property consists of five parcels totaling approximately 9.78 acres.	<b>Neg</b>	10/16/2001
2001091068	Precise Development Plan 6, Map 122 Kern County Planning Department Bakersfield--Kern A Precise Development Plan to allow the construction of a gas station, car wash and convenience store in a C-2 PD (General Commercial, Precise Development Combining) District. The applicants intend to construct a 3, 520 square foot convenience store, a 3, 230 square foot fuel island canopy, and a 960 square foot structure to house the car wash. 31 parking stalls are being provided with paved access to a facility. Site access is from Taft Highway (State Route 119), and the site is adjacent the south-bound off-ramp of Interstate 5. The proposed method of sewage disposal is a private septic system. Potable water is to be supplied from an on-site water well; a 15,000 gallon water storage tank will be constructed on the site. A 6-foot tall chain link fence will surround the project site.	<b>Neg</b>	10/16/2001
2001091069	Fallbrook View Apartments San Diego County Department of Planning and Land Use Fallbrook--San Diego The project consists of an 80-unit apartment complex, day care facilities for approximately 40 children, street level as well as underground parking, and a community facility. The proposed project involves a Major Use Permit for the proposed childcare center and health education facility that will serve the residents of the proposed Fallbrook View Apartments and the public.	<b>Neg</b>	10/16/2001

2001041039	SR 133 Widening Project Foothill-Eastern Transportation Corridor Agencies Irvine--Orange The Transportation Corridor Agencies proposes to provide one additional general purpose lane between Marine Way and Portola Parkway-Irvine. Construction will include paving in the median to add a third lane and full width shoulders in each direction along the toll road portion of SR 133. The project also consists of providing improvements to the SR 133 and SR 241 northbound and southbound connectors.	<b>FIN</b>	
1996042019	Village of Zinfandel General Plan Amendment, Zoning Ordinance Amendment, Development Agreement, And Tentative Subdivision Maps Sacramento County The proposed project consists of requests for the following entitlements: 1. General Plan Amendment to amend the Transportation Diagram to reflect the realignment of "A," "Airpark" and "C" Streets approved for the development known as "Villages of Zinfandel" 2. General Plan Amendment to amend the Land Use Diagram to reflect acreage changes. 3. Zoning Ordinance Amendment to amend the Zinfandel Special Planning Area (SPA) to reflect the changes. 4. Development agreement for the project known as the Villages of Zinfandel 5. Tentative Subdivision Map to create 44 single family lots, 2 landscape lots and one park site from a 17.0 acre area zoned SPA (RD-3-5). 6. Tentative Subdivision Map to create 73 single family lots, 3 landscape lots and one open space lot for drainage purposes from a 15.8 acre area zoned SPA (RD-3-5) and BP/MP. If approved, the accompanying General Plan Amendment and Zoning Ordinance Amendment will designate the entire 15.8 acre site SPA (RD-3-5).	<b>NOP</b>	10/17/2001
2001091083	The AT&T Corporation Fiber Optic Cable Project from San Luis Obispo to Los Angeles , CA San Luis Obispo County --San Luis Obispo, Santa Barbara, Los Angeles, Ventura AT&T is proposing a cable installation project to install buried fiber optic cable form the City of San Luis Obispo in San Luis Obispo County to the City of Los Angeles in Los Angeles County. The total length of the proposed route is approximately 243 miles. The project will be largely located within Union Pacific Railroad (UPRR) right-of-way, with portions of the route also located within city, county and state road rights-of-way. Most of the cable (173.6 miles or 71 percent) will be installed in existing buried conduits, the majority of which have been recently installed or under installation by Level 3 Communications. Approximately 29 percent (or 69.4 miles), of the route will require the installation of new conduits to house the fiber optic cable system.	<b>NOP</b>	10/17/2001

2001092069	Calvine Waterman, Calvine-Power Inn Substations and 69 KV Powerline Sacramento Municipal Utility District Elk Grove--Sacramento Construct and operate two neighborhood electric distribution substations and 3-mile inter connecting overhead, wood-pole 69,000 volt power line and rebuild existing 12,000 volt line.	<b>Neg</b>	10/17/2001
1996103448	Los Robles Del Mar Specific Plan Pismo Beach, City of Pismo Beach--San Luis Obispo The revised Specific Plan proposes the development of up to 312 dwelling units on Property A and the construction of a private school on Property B. The specific Plan land use concept would create a residential neighborhood with a mix of housing types, including high density affordable senior housing apartments, low density terrace homes, custom lots and rural estate lots, all planned in response to the environmental constraints on and the existing uses surrounding the Project Site. The proposed land use plan shows a general transition across the Project Site from low-density 8,000 square foot lots adjacent to the Sea Country Estates residential neighborhood to the south, to one-to two-acre lots on the northern and western boundaries of the Project Site. Approximately 71.1 acres of open space would be provided between the residential development areas. The open space areas would preserve the steeper slopes on the Project Site, scenic oak trees, and provide visual and recreational amenities for the areas' residents. One neighborhood park and one mini-park have been designated within the Project Site and are made accessible to the open space pedestrian trail system.	<b>SBE</b>	10/17/2001
1999081019	Lagunitas Mixed Use Development Carpinteria, City of Carpinteria--Santa Barbara The project involves a mixed use development consisting of 160,000 square feet of office park space on 12.3 acres and 77 single family residences on 13 acres. The office park component would consist of two buildings of 80,000 square feet each. The residential component would include singl family development at a range of densities and would include private open and landscape areas to serve site residents.	<b>SBE</b>	11/01/2001

	from the existing facility to the structure.		
2001098226	Expansion of the Existing Santa Maria Landfill, Solid Waste Facility Permit No. 42-AA-0016 Santa Maria, City of Santa Maria--Santa Barbara The proposal is for the permitting of a previously unknown area of waste disposal (2.16 acres containing approximately 50,000 cubic yards of municipal solid waste) contiguous with the permitted Santa Maria Landfill (SMLF), SWIS #42-AA-0016. This undocumented disposal area is proposed to be annexed to the existing SMLF 'footprint' and reflected in a revised Solid Waste Facility Permit, the Joint Technical Document, and the Closure Postclosure Maintenance Plan. This area will not be permitted to receive waste for future disposal without further regulatory and California Environmental Quality Act compliance.	<b>NOE</b>	
2001098227	Archeological Site Assessment Parks and Recreation, Department of --Sonoma Conduct archival and field research to document archeological sites and determine impacts. Monitoring hubs may be installed to quantify impacts from coastal erosion. Re-record sites.	<b>NOE</b>	
2001098228	Reconstruct Water Tank and Tower Parks and Recreation, Department of --Sacramento Reconstruct 1938 water tank and tower at Railtown 1897 State Historic Park. Existing non-historic water tank and associated support tower will be demolished to allow reconstruction on historic concrete footings. New tank and tower will resemble historic structure as closely as possible, while conforming to current engineering and building code requirements. Altered hip-style roof, reminiscent of earlier 1897 structure, will be used to reduce the need for chemical treatment of water in tank. Historic spout and flapper valve will be re-used in reconstruction. Water service pipe will be installed from existing valve box.	<b>NOE</b>	
2001098229	Cherub Rehabilitation - Casa Grande Parks and Recreation, Department of --San Luis Obispo Repair damaged carved limestone cherubs on perimeter of exterior balconies of Casa Grande at Hearst San Simeon State Historic Monument. Concealed stainless steel reinforcements will be installed and missing elements reconstructed, using a cementacious material that is compatible with and matches appearance of the original limestone. Consolidant may also be applied to arrest limestone deterioration, if no change in appearance will occur as a result of the application. Photographs of carved stone decorative features will be taken prior to, during, and after completion of work. All work shall be performed in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties.	<b>NOE</b>

2001098230	<p>Repair Neptune Pool Piping Parks and Recreation, Department of --San Luis Obispo</p> <p>Remove and replace existing water supply line (Chase plumbing) and main subterranean feeder lines for Neptune Pool (Reflection Pool) at Hearst San Simeon State Historic Monument. Steel piping and valves will be replaced with PVC/Schedule 80 and brass isolation valves will be added throughout both lines. Space restrictions do not allow steel piping to be replaced in kind; however, this plumbing is not readily accessible, visible, or of unique character and is not a significant historical element of the design of operation of the pool. Steel scum gutter and return lines will also be replaced; PVC isolation valves will be installed in these lines. Existing pipes are painted with lead-base paint; all pipe cutting will be performed by a licensed professional trained in lead abatement and proper disposal. Disposal will be consistent with applicable federal, state, and local environmental requirements; compliance will be documented. Photographs will be taken of project before, during, and after construction and CAD schematics made of the entire plumbing system.</p>	<b>NOE</b>

2001099043	Micro-tunnel Bank Stabilization in the Santa Ynez River Santa Barbara County Buellton--Santa Barbara California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 (SAA#5-2001-0186) of the Fish and Game Code to the project applicant, Central Coast Water Authority. The applicant proposes to repair erosional damage to the bank with a steel pile retard system.	<b>NOD</b>	
2001099047	Notification Number R3-2001-0357 Public Utilities Commission --Alameda The project is the issuance by the California Department of Fish and Game of a lake and streambed alteration agreement to XO California, Inc. represented by Mr. Sean Wightman, in conjunction with the applicant's proposal to construct a fiber optics project in the county of Alameda. The project involves the installation of underground fiber optics cable. The agreement authorizes the applicant to proceed with those parts of the project that will impact and rivers and streams along the cable route within the Department's jurisdiction pursuant to Fish and Game Code section 1601. This Notice of Determination applies only to the Department's issuance of the agreement, and not to the construction of the fiber optics project as a whole.	<b>NOD</b>	
2001099048	Alhambra Avenue Basin Martinez, City of Martinez--Contra Costa The California Department of Fish and Game (DFG) is executing a lake and streambed alteration agreement R3-2001-0504 pursuant to section 1601 of the Fish and Game Code to the project applicant, Richard Pearson. The applicant proposes to construct a detention basin on a 4.2-acre parcel between Alhambra Avenue and Pleasant Hill Road East. The basin outlet will be an 18" storm drain pipe fitted with an endwall and flap gate. This pipe will discharge onto existing, and no more than 10 linear feet of new, rock riprap on the west bank of an unnamed tributary to Alhambra Creek, in Martinez, Contra Costa County.	<b>NOD</b>

2001099049	Fremont-Emerlyville Fiber Optics Installation by XO California, Incorporated Public Utilities Commission --Alameda The operator will install fiber optics cable underneath waters of the State via directional boring below Alameda Creek in two locations in Alameda County. These crossings, as well as 17 others that have 1601 streambed alteration agreements with the Department are collectively described as the Fremont-Emerlyville Backbone project. Issuance of a Streambed Alteration Agreement Number R3-2001-0355 pursuant to Fish and Game Code Section 1601.	<b>NOD</b>	
2001098242	Well No. 527G1-18 (030-19202) Conservation, Department of --Kern Drill a development well within the administrative boundaries of an oil and gas field. The well will be compatible with existing land use.	<b>NOE</b>	
2001098251	Saldich Bridge Replacement Fish & Game #3 Palo Alto--Santa Clara, San Mateo Replacement of bridge deck and stabilization of abutments for an existing pedestrian bridge over San Francisquito Creek. The existing damaged bridge deck will be removed and replaced with a new deck, the existing abutments will be core drilled and tieback anchors will be installed. No grading will occur within the creek and no existing vegetation will be removed. Issuance of a Streambed Alteration Agreement Number R3-2001-0257 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2001098252	Morrison Creek Gravel Extraction Fish & Game #3 --Mendocino Removal of up to 900 cubic yards of gravel will be removed from Morrison Creek over a three to five year period. The material will be used on site for levee restoration and on all-season roads. Issuance of a Streambed Alteration Agreement Number R3-2001-0412 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2001098253	San Luis Obispo Creek Rock Weir Fish Ladder Construction Fish & Game #3 --San Luis Obispo The project is located in San Luis Obispo County along Highway 101 at KP 34.6. The work is in San Luis Obispo Creek, a perennial stream tributary to the Pacific Ocean. This project is a fish ladder repair/restoration that has resulted from the terms and conditions in the Biological Opinion from the National Marine Fisheries Services (NMFS). The work will result in the removal of the existing, poorly functioning fish ladder and its replacement with a series of rock weirs designed in conformance with the California Department of Fish and Game's "Salmonid Habitat Restoration Manual". To accomplish the project, the work area will be temporarily dewatered by construction of a coffer dam upstream of the work area using clean gravel and visquine. A second coffer dam of the same material will be constructed below the work area to isolate the construction area. Water will be diverted around the work area through a 42 inch pipe. The total work area to be	<b>NOE</b>

<b><u>Documents Received on Wednesday, September 19, 2001</u></b>			
	dewatered is approximately 85 meters. Upon completion of the work, the coffer dams will be removed and the area returned to its prior grade. To access the stream, the willow trees along the bank of the creek will need to be removed. Once dry, the work area will be excavated and a filter fabric placed in the area where the weirs will be constructed. A foundation of smaller rock will be placed on the filter fabric. Then a total of four rock weirs consisting of 1 and 2 ton rock will be built across the channel at varying heights. The areas between the weirs and the ends of the weirs will be backfilled with a clean cohesive material imported from off-site. The streambed will then be lined with clean sand and gravel. Issuance of a Streambed Alteration Agreement Number R3-2001-0749 pursuant to Fish and Game Code Section 1601.		
2001098254	Rip-Rap Installation at Willow Brook Fish & Game #3 Petaluma--Sonoma Installation of rip-rap and boulders at four, 30 to 75-foot long sections of the creek. The rip-rap and boulders will be covered with clean fill, straw or lath. Willow trees and other erosion control vegetation will be planted. Issuance of a Streambed Alteration Agreement Number R3-2001-0549 pursuant to Fish and Game Code Section 1603.	NOE	
2001098255	Storm Drain Discharge Fish & Game #3 Los Gatos--Santa Clara Connection of a storm drain discharge pipe to channel through an existing concrete wall. Issuance of a Streambed Alteration Agreement Number R3-2001-0430 pursuant to Fish and Game Code Section 1603.	NOE	
2001098256	Lewis Creek Road Bridge (Monterey County Bridge No. 420) Replacement Fish & Game #3 --Monterey, San Benito Monterey County Bridge No. 420 was washed out during flood waters in early 1997. The bridge serves only a few residences located on Lewis Creek Road. The purpose of this project is to reconstruct the disaster damaged bridge. The project includes work to construct a replacement bridge over Lewis Creek, as well as road work at the approaches to the replacement bridge. The replacement bridge will be a two-span continuous steel girder ridge with a concrete deck. The road work includes mainly earthwork, placing aggregate base and asphalt concrete surfacing. Issuance of Streambed Alteration Agreement Number R3-2001-0325 pursuant to Fish and Game Code Section 1601.	NOE	
2001098257	Rip Rap Installation Fish & Game #3 Ukiah--Mendocino Installation of 110 linear feet of rip rap on the south bank of Gibson Creek, a tributary to the Russian River. All work will be conducted in the summer dry season. One hundred willow cuttings will be placed in the rip rap as it is being installed. Issuance of a Streambed Alteration Agreement Number R3-2001-0066 pursuant to Fish and Game Code Section 1603.	NOE

	mining activities. As proposed, mining would encompass 36 acres and employ open pit, drill, and blast mining techniques. Basalt aggregate would be used by U.S. Borax in conjunction with its existing operations. Mining would occur as needed and would therefore be intermittent over the estimated 34-year life of the project. The applicant estimates that between 50,000 to 250,000 tons of material would be removed per year. Total anticipated production of basalt and overburden wasterock is estimated at 3 and 0.6 million tons, respectively. As proposed maximum depth of excavation would be 150 feet in Section 16 and 190 feet in Section 10. Crushing and stockpiling of aggregate would occur off site on an industrially zoned and designated parcel. As such, the crushing and stockpiling of aggregate would be permitted "by right" and is not within the scope of the discretionary request being considered. Overburden/wasterock would be hauled to areas on U.S. Borax property already permitted for overburden placement. Sewage disposal is not proposed. Water supply for dust suppression would be from Antelope Valley-East Kern Water Agency and recycled condensate from the Mojave Cogeneration Company Plant. Access would be via an unimproved road on the north side of U.S. Borax's existing borate processing ponds.

<b><u>Documents Received on Friday, September 21, 2001</u></b>			
2001109006	Rafael Village/Capehart Hillside Redevelopment Project Novato, City of Novato--Marin The project consists of a road crossing repair, construction of an outfall on San Jose Creek at the end of Acme Court and construction of an inlet and outfall structures on a bypass channel on Pacheco Creek along West Kelly Drive. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0672 pursuant to section 1603 of the Fish and Game Code to the project operator, Rob Wainwright.	<b>NOD</b>	
2001098279	Grant to The Nature Conservancy for Sacramento River Land Acquisition (Hamilton City Area) Water Resources, Department of --Glenn The Project involves DWR executing a grant agreement, pursuant to the Safe Drinking Water, Watershed Protection and Flood Protection Act of 2000, for a \$5 million grant to The Nature Conservancy for identification and fee acquisition of properties located along the Sacramento River in the Hamilton City Area. The properties would be purchased as part of a potential flood protection and environmental restoration project currently being jointly studied by the Army Corps of Engineers, the State Reclamation Board, and Glenn County to increase flood protection for the Hamilton City Area. All properties will be purchased by The Nature Conservancy from willing sellers. Approximately 2-5 parcels, depending on size and current land use, will be acquired. Current uses of the potential properties include agriculture and or natural riparian habitat. All or a portion of the properties may be contributed to the non-federal sponsors of the future federally authorized flood control/environmental restoration project. All acquired lands will remain in agricultural production through the term of the agreement or until property interests are conveyed for a future flood damage reduction project, except that land fallowed consistent with reasonable agricultural practices shall be deemed as remaining in agricultural production through the term of the Agreement. No flood control project will be initiated without further CEQA compliance.	<b>NOE</b>	
2001098280	Vandenberg Air Force Base Partial Closure Class 1 Permit Modification Toxic Substances Control, Department of --Santa Barbara Vandenberg Air Force Base, has requested a Class 1 Permit Modification to their Hazardous Waste Facility Permit. The Modification amends the 1995 closure plan for the hazardous waste drum storage building unit to improve and make more specific the operation history, the closure activities and the sampling protocol prior to its implementation.	<b>NOE</b>	
2001098281	Limited Removal Action Workplan for San Bernardino I, Former Manufactured Gas Plant Site Toxic Substances Control, Department of --San Bernardino The object of this project is to remove the contaminated soils so that the residual C-PAHs in soil, if any, will be reduced to the average concentration of background soil in southern California. The initial excavation target for C-PAHs is 0.9 mg/kg, based on the benzo(a)pyrene (B(a)P) potency equivalency factor (PEF).	<b>NOE</b>

<b><u>Documents Received on Monday, September 24, 2001</u></b>			
2001092093	City of Union City General Plan Update Union City Hayward, Fremont--Alameda The City of Union City (City) is preparing this program environmental impact report (EIR) to identify potential impacts associated with its updated general plan and the documents that implement the general plan (proposed program). This EIR provides an overview of the proposed general plan, alternatives to the proposed general plan, and other impact conclusions required by CEQA.	<b>EIR</b>	11/07/2001
2000122013	Brentwood General Plan Update Brentwood, City of Brentwood--Contra Costa The project is an update of the current General Plan for Brentwood adopted in 1993. The major goals for the General Plan Update are to reduce residential growth, increase job-generating land uses, and create a plan that will preserve and enhance the quality of life for Brentwood's citizens while providing for future growth and development for jobs, housing, public facilities, and community resources. The current General Plan Update effort involves amendments to three existing elements that are important to Brentwood's future.	<b>FIN</b>	
2001042063	City of Campbell General Plan Update Campbell, City of Campbell--Santa Clara The project is a comprehensive revision and update of the Campbell General Plan. Elements of the General Plan have been periodically revised and amended, with the latest revision occurring in 1993. The Draft General Plan includes the seven elements required by State law - Land Use, Circulation, Open Space, Conservation, Safety, Noise, and Housing and two optional elements - Parks and Recreation and Public Facilities.	<b>FIN</b>	
2001081037	Time-Critical Removal Action Work Plan, Installation Restoration Site 5, Seal Beach Naval Weapons Station Department of Toxic Substances Control Seal Beach--Orange The Department of the Navy is proposing a complete removal action for site 5, Clean Fill Disposal Area at Seal Beach Naval Weapons Station. The removal action includes the removal of soil (disposal fill material) and processing the soil through a mechanical sifting apparatus to separate ordnance items and construction debris. Sifted soil will be temporarily stocked piled at site 5 and then relocated over time for beneficial reuse at other locations of the site. The discovered live ordnance will be detonated on site under the direction of Navy EOD personnel. All inert materials, debris scrap metal will be sent to off-site disposal facilities.	<b>FIN</b>	
2001091120	City of Carson General Plan Update Carson, City of Carson--Los Angeles The Draft EIR shall evaluate potential environmental impacts resulting from the following revisions to the City's General Plan, including but not limited to: update of the City's land use database; update of the City's traffic model; revision to General Plan noise and air quality data based on the new traffic model; establishment of building intensities for all commercial, industrial and institutional land uses;	<b>NOP</b>	10/23/2001

1987122129	Surface Mining Permit #162 Riverside County --Riverside CDFG is executing a lake and streambed alteration agreement (SAA #6-2001-163) pursuant to section 1603 of the Fish and Game Code to the project applicant, Robertson's Ready Mix. The applicant proposes to improve the existing levee along the San Geronio River, which includes earth fill and compaction to an engineered configuration and installation of reinforced concrete and rock slope protection.	<b>NOD</b>	
1995093022	Application to Appropriate Water No. 29061 et al. State Water Resources Control Board Delta Wetlands properties (DW) proposes to construct and operate the Delta Wetlands Project. The Delta Wetlands Project is a water storage project on four islands in the Sacramento-San Joaquin Delta. DW will divert surplus Delta inflows by siphon onto two reservoir islands (Bacon Island and Webb Tract) for later sale and/or release for Delta export or to meet Bay-Delta estuary water quality of flow requirements. As part of the environmental mitigation for the DW project, DW will manage two islands, Bouldin Island and Holland Tract, as "habitat islands" through wetland recreation and wildlife habitat management.	<b>NOD</b>	
1997122007	Mountain Springs Community Plan Tuolumne County Sonora--Tuolumne The proposed project involves the development of approximately 1,119 acres, surrounding the existing Mountain Springs Golf Course, into various urban land uses including single family, multiple family and estate residential, as well as neighborhood commercial type uses. Specifically, the project provides for the development of 2,076 dwelling units, 34 acres of commercial and 295 acres of open space. The existing Mountain Springs Golf Course covers approximately 187 acres and is to be designated as a commercial/recreational land use. Project buildout will be done in phases. Development of the Mountain Springs project will require the extension of public water and public sewer lines and improvements to Tuolumne Utilities District's water and sewer facilities. Access to the project site is proposed to be from Lime Kiln Road which is proposed to be improved, including replacement of the bridge across Sullivan Creek, as part of the Mountain Springs Community Plan project.	<b>NOD</b>	
2000021039	Summer Glen, TM 5122, Vac 97-014, Log No. 97-14-030 San Diego County, Department of Planning and Land Use Lakeside--San Diego CDFG is intending to execute a Lake and Streambed Alteration pursuant to Section 1603 (SAA # R5-2001-0044) of the Fish and Game Code to the project applicant, Tony Harper of Sparks Associates, LLC. The applicant/operator proposes to alter the streambed to construct the Summer Glen III Estates subdivision project, consisting of the 29 single family residential lots, appurtenant streets, drainage structures, and utilities, on approximately 9.7 acres. Habitat communities on the project site consists of 7.24 acres of non-native grasslands, 1.54 acres of coastal sage scrub, 0.25 acres of jurisdictional stream (including 0.15 acres of southern will scrub, 0.01 acres of fresh water marsh and 0.09 non-wetland jurisdictional stream), and the remaining 0.65 acre is developed.	<b>NOD</b>

2000011048	Dunn Vesting Tentative Parcel Map TPM 14,375 Santa Barbara County Summerland--Santa Barbara The applicant requests subdivision of a 6.05 acre property into two 3.025 acre parcels.	<b>EIR</b>	11/08/2001
2000112010	Union City Community Redevelopment Plan Amendment Project Union City Union City--Alameda The Community Redevelopment Agency of the City of Union City (Agency) is preparing for consideration of adoption by the City Council (City) an amendment to the original (1988) City of Union City Community Redevelopment Plan that would expand the 1988 Project Area boundaries to add territory, change certain Redevelopment Plan time and financial limits, and revise the list of proposed redevelopment programs and activities.	<b>EIR</b>	11/08/2001
2001062108	Terman Middle School Reopening Palo Alto Unified School District Palo Alto--Santa Clara Renovate and reopen a middle school at a facility originally built for that purpose.	<b>EIR</b>	11/08/2001
2000012026	Town of Loomis General Plan Update Loomis, City of Loomis--Placer Town has been working on a General Plan Update with a 10 person representative Steering Committee, then the Planning Commission. Pages 22-33 note areas of land use change. Figure 6 shows Circulation Element proposals. The Housing Element has only been reformatted with this update.	<b>FIN</b>	
2001091134	Conditional Use Permit CUP 01-5 (Laguna Canyon Self-Storage) Laguna Beach, City of Laguna Beach--Orange The proposed development consists of a 91,908 square-foot self-storage facility (approximately 600 storage units), which includes two large structures covering most of the 1.56-acre site. A two-story building is proposed around the site perimeter, positioned at the property boundary along the easterly, southerly and westerly property lines, and setback 25 feet on the property line. A rectangular 3-story structure is proposed to be located centrally within the property, separated from the perimeter structure by a 28 to 35 foot-wide drive aisle. Proposed access to the site is via an existing driveway located on the adjacent property to the west. The southern portion of the site is undeveloped; the northern portion of the site, which borders Laguna Canyon Road, maintains a paved parking lot that serves and provides parking for the office buildings to the west. The proposed project would displace required parking for the adjacent office use.	<b>NOP</b>	10/24/2001

2001092094	Foresthill Divide Community Plan Placer County Planning Department Auburn--Placer Proposed Foresthill Divide Community Plan intended to supersede the 1981 Foresthill General Plan.	<b>NOP</b>	10/24/2001
1992051043	Eastside High School Antelope Valley Union High School District The school is a needed facility to help accommodate educational needs of the rapidly growing population in the Lancaster area. The school, located southwest of East Avenue j-8 and 35th Street East, will serve students in the 9th through 12th grades. At buildout, the campus will accomodate approximately 2,000 students and 100 staff. The conceptual campus site plan locates classrooms and administrative buildings on the northeast end of the site. Buildings will range from one to two stories in height. Four parking lots on the site will provide parking for students, faculty, and visitors. Along the southern portion of the site, will be sports fields and facilities, that could include three baseball diamonds, two soccer fields, a varsity football field, basketball courts, and tennis courts. Three pedestrian bridges cross the flood control channel. The northwest and southwest portions of the site are anticipated to remain vacant. The school will operate on a typical schedule from 7:30 a.m. to 2:30 p.m.	<b>Neg</b>	10/24/2001
2001091129	Camaldolese Hermitage Monterey County --Monterey The proposed project consists of the regrading of an abandoned ranch road to provide a main vehicular access to the existing Hermitage facilities; the regraded road would replace an existing road damaged by an active landslide. Located easterly of Coast Highway One just south of the Hamlet of Lucia in the Big Sur Area.	<b>Neg</b>	10/24/2001
2001091130	Pavey Single Family Dwelling Monterey County --Monterey The proposed project consists of the construction of a new 2,354 square foot single-story single family dwelling with detached 1,300 square foot garage, a two connection water system with an existing well as the water source, two septic systems, demolition of the existing building, and grading (approximately 1,500 cubic yards), a new 848 square foot caretaker unit with a detached 260 square foot carport, clearance of a code violation involving installation of a water tank, piping, and grading, and a Variance to reduce the front setback from 30 feet to 6 feet from the edge of the road easement.	<b>Neg</b>	10/24/2001
2001091131	Creston-O'Donovan Road Bridge Repair Project; ED01-101 (C010016E/P 12B501) San Luis Obispo County --San Luis Obispo The County of San Luis Obispo is proposing to repair the undermined supports under a bridge on Creston-O 'Donovan road over Huer-Huero Creek. The repair will require the placement of a new downstream cut-off wall, backfilling behind the wall, and pumping grout into the voids under the bridge supports. The project is located on Creston-O 'Donovan Road at Huer-Huero Creek, approximately 0.7	<b>Neg</b>	10/24/2001

	miles north of State Highway 58, 11.5 miles east of the community of Santa Margarita, in San Luis Obispo County.		
2001091132	Bagnall Minor Use Permit; D000300P (ED00-545) San Luis Obispo County --San Luis Obispo A request to restore and renovate the 3,195 square foot historic Cass House to establish a five room bed & breakfast inn, and restaurant. The project includes restoration of some accessory buildings on the site including the water tower and cottage, as well as the installation of parking, landscaping and fencing.	<b>Neg</b>	10/24/2001
2001091133	High School in Rancho Vista Area Antelope Valley Union High School District Palmdale--Los Angeles At this time, the primary focus is on a small, specialized 9th -12th grade high school serving a small attendance area to the north and east of the site. The school would also house open enrollment students attracted to the site by the specialized programs. Those specialized programs would be Academy of career path programs in areas such as technology, engineering, computer graphics, and other similar programs that best meet the needs of the students of the Antelope Valley Union High School District. Depending on the growth rate in this area, a second option also exists for the use of this site. Highland High School currently has approximately 800 9th grade students, and a total student population of over 2,900 students. The District owns no other site within 5 miles of Highland High School. It is possible that the District will need this site to meet the needs of the students in this geographical area, and if so, this site could be used as a satellite 9th grade campus for Highland High School.	<b>Neg</b>	10/24/2001

2001091141	Plan Amendment and Rezone Application No. A-01-21 Fresno, City of --Fresno Plan Amendment Application No. A-01-21 is requesting a change in the planned land uses of the 1984 Fresno General Plan, the Fresno Yosemite International Environs Area Plan, McLane Community Plan and the Roosevelt Community Plan. The subject application, filed by Fancher Creek Properties, is proposing a planned residential development to include approximately 635 units and approximately 2,000,000 square feet of office/light industrial type development.	<b>CON</b>	10/05/2001
2001021031	San Luis Obispo Council of Governments 2001 Regional Transportation Plan San Luis Obispo Council of Governments --San Luis Obispo The SLOCOG 2001 Regional Transportation Plan (RTP) is the official statement of the Regional Transportation Planning Agency setting forth the goals, objectives, policies, and assumptions outlining the anticipated transportation needs for the region over the next 20 years. The 2001 RTP identifies, measures and resources to help maintain, enhance and further develop the network of transportation services in the area. The RTP also identifies the anticipated funding sources that will provide for the implementation of the projects contained in the Plan.	<b>EIR</b>	11/09/2001
2001091137	Bradley Overhead Bridge Replacement Caltrans Merced--Merced Caltrans is proposing to replace the Bradley Overhead, located on Route 140 in the City of Merced. The project would widen State Route 140 on both sides of the Bradley Overhead, to provide continuity between the existing four-lane highway and the proposed four-lane bridge. In addition, the project would realign and signalize two intersections, located at Baker Drive and Santa Fe Avenue.	<b>NOP</b>	10/25/2001
2001091139	Monterey County 2002 Regional Transportation Plan Monterey County Transportation Agency --Monterey The proposed project is an update to the 1994 Monterey County Regional Transportation Plan. The draft 2002 RTP includes several new capital improvement projects that were not included in the 1994 RTP. The purpose of this environmental review, is the 2002 draft RTP, generally focusing on projects identified as financially constrained or "funded", as well as the policies and programs in the Policy Element.	<b>NOP</b>	10/25/2001

<b><u>Documents Received on Wednesday, September 26, 2001</u></b>			
2001091135	Karrer S2001-08 Big Bear Municipal Water District Big Bear Lake--San Bernardino The proposed project is to dredge a portion of the Lake bottom adjacent to 780 Delamar, Big Bear Lake. This will provide deeper water for boating access and help reduce the aquatic weed growth in the area. Using loaders and excavators, the project will dredge an area measuring 325' on the east side, 375' on the west side, 160' on the north side and 300' on the shore side to a depth of 15' to provide boating access to the above mentioned property. All of the material dredged will be placed on the applicant's property adjacent to the dredge area using dump trucks. The materials will be secured to prevent them from re-entering the Lake by placing a seawall above the water line on the applicant's property.	<b>Neg</b>	10/25/2001
2001091136	Azusa Electric Substation Azusa, City of Irwindale--Los Angeles New electric substation.	<b>Neg</b>	10/29/2001
2001091138	Release of 2001 Castaic Creek Flood Flows to Castaic Lake Water Agency Water Resources, Department of --Los Angeles The California Department of Water Resources (Department) proposes to amend the 1978 Conservation Agreement (the Agreement) it has with United Conservation District, Newhall Land and Farming Company, Newhall County Water District, and the County of Los Angeles, collectively the Downstream Users, to allow the transfer of 8,786 acre-feet of the 2001 Castaic Creek flood flows (storm waters) to Castaic Lake Water Agency (CLWA). The remaining portion of 2001 Castaic Creek flood flows, 1,200 acre-feet, will be retained by the Department to support recreation at Castaic Lagoon. The Downstream Users have assigned the 2001 Castaic Creek flood flows to CLWA without expectation of repayment or compensation. CLWA will use the water to meet its residential and municipal demands for the 2001 water year.	<b>Neg</b>	10/15/2001
2001092096	Initial Study for Final Closure and Transfer Station for Black Butte Landfill Siskiyou County Mount Shasta--Siskiyou Closure of 30-acre landfill and conversion to a solid-waste transfer facility.	<b>Neg</b>	10/25/2001
2001092099	Tehama County/City of Red Bluff Landfill Land Acquisition and Facility Improvements Tehama County Red Bluff--Tehama Tehama County and the City of Red Bluff, as the owners of the Landfill, acquired 76 acres of land immediately adjacent to the existing Landfill to expand the facility to approximately 159.6 acres. In conjunction with this land acquisition, Green Waste of Tehama (contract operators) developed plans and constructed a Material Recovery Facility (MRF), composting operation, Household Hazardous Waste facility (ABOP-antifreeze, batteries, oils and paints), and sediment control ponds on the additionally acquired land. The additional land, and the facility operations must be approved by the appropriate regulatory agencies before they can be operated at the site. The incoming waste volume at the site currently ranges from 5 tons per day (tpd) to over 585 tpd, averaging approximately 137 tpd.	<b>Neg</b>	10/25/2001

1998102048	Manteca WQCF Phase III/IV Expansion Manteca, City of Manteca--San Joaquin The City of Manteca has approved the expansion of the existing Wastewater Quality Control Facility (WQCF) from its existing design capacity of 6.95 million gallons per day (mgd) to 9.87 mgd. Specific project components include: 1) influent pump station; 2) aerated grit tanks; 3) primary sedimentation basins; 4) aeration basins; 5) secondary clarifiers; 6) UV disinfection system; 7) effluent pump station; 8) anaerobic digester; 9) cogeneration system; 10) centrifugal dewatering system; 11) support facilities; and 12) electrical system improvements.	<b>NOD</b>	
1999022065	Lodi Gas Storage Project Public Utilities Commission Lodi--San Joaquin, Sacramento Authorize the installation of a 24-inch diameter high-pressure gas pipeline connecting the existing Pacific Gas and Electric Line 401 at Sherman Island to the Lodi Gas Field located approximately 5.4 miles northeast of the City of Lodi to provide natural gas storage and hub services to natural gas consumers, utilities and marketing companies.	<b>NOD</b>	
2000081028	Negative Declaration No. 00-05 [Humbolt and Trinidad Islands Seawall (Bulkhead) Repairs] Huntington Beach, City of Huntington Beach--Orange Authorize the repair of an existing bulkhead.	<b>NOD</b>	
2000082066	Repair of Rodeo Gulch Road Failures Santa Cruz County Soquel--Santa Cruz The project is located along Rodeo Gulch at P.M. 2.10 and 3.14 in Santa Cruz County. The scope of work includes excavating, placing filter fabric, rock slope protection, compacted backfill and revegetation with willow pole cuttings. All work will be done from the roadway. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0254 pursuant to Section 1601 of the Fish and Game Code to project operator, John Swenson / Santa Cruz County Department of Public Works.	<b>NOD</b>	
2000111071	Orchard Rim Lane Oxbow Restoration Orange County --Orange The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 of the Fish and Game Code to the project applicant, the County of Orange. The applicant proposes to stabilize a 400 foot section of the eastern bank of the Serrano Creek in the City of Lake Forest through the layering of soil wrapped in geotextile material atop a rip-rap foundation. Cut live willow branches will be interspersed between the layers of soil and seeds from native species will be dispersed to encourage establishment of habitat for wildlife.	<b>NOD</b>

	approximately 8 feet at the bottom of the trench and 60 feet at the top of the trench. Bedding material for the culvert will be approximately 6 inches in depth below the pipe and shall be graded to provide a uniform bearing along all portions of the new pipe. The bank to be excavated for the replacement project is comprised of fill material supporting the road crossing the creek. The road which crosses over the pipe will be reconstructed to its original configuration and erosion control and hydroseeding with native plant species will be applied when construction is completed. A disturbed upland area adjacent to reconstruction site will be used as a lie-down area and will be re-seeded with native species after reconstruction of the culvert. Work is anticipated to take 2 to 3 weeks. If there is flow in the creek during construction, a temporary small dam will be deployed to divert the flow to bypass the project site. The flow will be returned to the creek downstream of the project site. All the equipment will remain in the roadbed.		
2001098485	Court of Appeal, Fifth Appellate District - Expansion Judicial Council of California --Fresno Existing courthouse has exceeded maximum capacity and design/construction of a new courthouse is in progress. This project provides approximately 2,918 useable square feet leased of office space across the street from the existing courthouse to house staff that cannot be accommodated in the existing courthouse until the new courthouse is completed. It also provides space for the new justice and staff created by SB 1857.	NOE

2001092100	Petaluma Community School Sonoma County Petaluma--Sonoma The Sonoma County Office of Education proposes to develop a community school on a 1.94 acre site located at 1365 Industrial Avenue, Petaluma. The site is currently in private ownership and it is the intention of SCOE to purchase the property. The Petaluma Community School will serve students at the high school grade level. Students are directed to a community school for a variety of personal reasons. The proposed new facility will consist of two classrooms and one multipurpose building (Figure 2). The building will be manufactured prototype structures, readily approved by the Department of the State Architect. The facility will include approximately 12 parking spaces and an outdoor, paved basketball court. Vehicular access to the site will be from Industrial Avenue. There will be no school bus service provided to the project site, however, Golden Gate Transit and Sonoma County Transit busses stop at the intersection of Industrial and Petaluma Boulevard North. It is expected that this community school will serve approximately 20 students per classroom, for a total of 40 students. There will typically be about 2 to 3 staff members on-site at any time. The school will generally operate on a year-round basis, and virtually all programs will occur during daytime hours, although it is possible that occasional nighttime use of the facility could occur.	<b>Neg</b>	10/26/2001
2001092101	West Shore Bike Path Realignment-Lower Sequoia Area Tahoe City Public Utility District --Placer The proposed project would involve the relocation of an existing bicycle facility located in Sunnyside, Placer County, California. The proposed project would fill a gap in the existing Class 1 bike path through the Sunnyside area. Currently, the Class 1 bike path ends at Sequoia Avenue, about a quarter mile south of the existing highway crossing. Bicyclists and pedestrians are directed onto Class 3 bike lanes along Sequoia Avenue. The Class 1 bike path picks up again once Sequoia Avenue intersects with SR 89.	<b>Neg</b>	10/26/2001
2001092103	West Shore Bike Path Extension: Sugar Pine to Meeks Bay Tahoe City Public Utility District --El Dorado The proposed project involves constructing approximately 3,200 linear feet (0.6 mi) of paved, 8-foot wide, Class 1 bicycle path from the entrance to Meeks Bay Resort north to the Sugar Pine State Park boundary. The new trail would tie into an existing bicycle path at that northern point (see attached conceptual plans). In	<b>Neg</b>	10/26/2001

2001098480	Annett's Mono Village Marina Repair Fish & Game #7 --Mono Repair an existing boat marina retaining wall in Upper Twin Lake. Work will include cleaning the marin bank of low brush and grass, cleaning the marina channel of sediment and repairing the marina wall. A barrier of sandbags will be used around the work area where cement will be poured. The sand/silt from excavation will be hauled away and disposed of at an appropriate facility. Work will be completed with a tractor/backhoe only. All work will occur when the lake is at its lowest water level.	NOE	
2001098481	Arroyo Conejo Non-native Plant Removal for the Unit W & Unit F Interceptor Off site Mitigation plan. Fish & Game #5 Thousand Oaks--Ventura The City of Thousand Oaks proposes to remove non-native plant species (Arundo donax, Tree Tobacco, Coaster Bean and Fan Palm) from a portion of the Arroyo Conejo located in Hill Canyon beginning 900 feet downstream of the Hill Canyon Wastewater Treatment Plant drying beds and continuing for approximately 5500 feet. The removal of non-native plants is part of a Army Corp of Engineers mitigation requirement for stream impacts under the Unit W and Unit F Wastewater Interceptor Reconstruction Projects. The removal will be accomplished by hand crews (cutting and herbicide application), herbicide spray equipment (foliar spray), tractors (mechanical cutting), and medium duty trucks (removal of plant material). Twenty four acres of habitat will be treated overall including the removal of about 3 acres of Arundo donax.	NOE

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, September 28, 2001</u></b>			
2001094007	<p>Reclaimed Water Project U.S. Air Force El Segundo--Los Angeles</p> <p>The proposed Action consists of removing the landscape irrigation system from the potable water line and attaching it to a reclaimed water line provided by the West Basin Municipal Water District. The new landscape irrigation system would be installed in portions of Areas A and B at the Los Angeles Air Force Base (LAAFB). Area A is located at the southeast corner of El Segundo Boulevard and Aviation Boulevard and encompasses 41.45 acres. Area B is located at the northwest corner of El Segundo Boulevard and Aviation Boulevard and encompasses 53.70 acres. Area A retrofits would consist of two connections at existing irrigation backflow preventers near Building 110 and 130. A new reclaimed irrigation line would be installed at the corner of Aviation Boulevard and El Segundo Boulevard, and would connect to existing irrigation lines. In Area B, a new line would enter LAAFB at Gate 6 and terminate approximately 40 feet further on LAAFB where it would be available for future use. A second line would be tapped to provide irrigation water for the landscaping along the perimeter of Area B, from Gate 6 to Gate 5. Reclaimed water is a less expensive and drought resistant source of water. The use of this water source would conserve potable water in the greater Los Angeles area and on LAAFB.</p>	EA	10/29/2001
2000121051	<p>Burbank Media Center Project Burbank, City of Burbank--Los Angeles</p> <p>The proposed Burbank Media Center project would include approximately 925,000 square feet of space in 3, 6, and 18 story buildings. The proposed uses include media in the 6 and 18 story buildings, a hotel in an 18 story building and retail commercial uses, a health club, and a childcare facility in the 3 story buildings. The project would also incorporate a new church building replacing the existing church on the site. The applicant has also requested a flexible entitlement for the project that would allow development of 192 residential units instead of the proposed hotel in order to be able to respond to market conditions. Both development scenarios are evaluated in this EIR. Development of the project with the hotel is referred to as "project scenario 1" and development with the residential uses is referred to as "project scenario 2".</p>	EIR	11/12/2001
2001021037	<p>The Pointe at Point Happy Ranch Specific Plan La Quinta, City of La Quinta--Riverside</p> <p>The project is proposed as a senior retirement village on approximately 43 acres located within the City of La Quinta, Riverside County. It is proposed to include 62 independent living villa units, a maximum of 310 rooms in two buildings for assisted living, independent living, and continuing care for seniors, a five acre commercial center with approximately 53,500 square feet of building space, and 19 acres of open space.</p>	EIR	11/12/2001

	(Commercial Regional) zone and Redevelopment area.		
2001041036	Add High Occupancy Vehicle Lane and Auxillary Lanes to Southbound I-405 from I-10 to Waterford Street Caltrans Los Angeles, City of--Los Angeles Construct High Occupancy Vehicle lane and auxillary lanes on southbound I-405 from Waterford St. to I-10 in the City of Los Angeles. Soundwalls will be constructed, and the Waterford St. on -ramp will be permanently closed.	<b>NOD</b>	
2001061130	White Minor Residential Subdivision San Diego County, Department of Planning and Land Use Fallbrook--San Diego The project proposes to subdivide 5.28 acres into 2 lots measuring 2.17 acres and 2.70 acres (net) for single-family residential development. All utility lines exist and no off site improvements are proposed. Access to the site is through Via Rancheros, an existing private road. Both lots will be on septic and will receive water services from the Fallbrook Public Utility District. The project will be required to dedicate an open space vegetation and preclude impacts to the off-site wetland.	<b>NOD</b>	
2001062072	McBain General Plan and Zoning Amendment Arcata, City of Arcata--Humboldt Local Coastal Plan and Zoning Amendment to rezone the property from Coastal Residential Medium High Density (C-RMH) to Coastal Central Business District (C-CBD).	<b>NOD</b>	
2001071037	Preissman Elementary School Construction Project Val Verde Unified School District Perris--Riverside The proposed project involves construction of a new elementary school consisting of 19 standard classrooms, two kindergarten classrooms, a library/media center, administrative offices, a food service area, and hardcourt and turf playground areas. The Elementary School will accommodate approximately 650 students in grades K-5, and employ between 55 and 60 teachers and support staff at the school.	<b>NOD</b>	
2001072084	Camanche Water Treatment Plant Replacement Project East Bay Municipal Utility District Jackson--Amador, Calaveras Construction of an approximately 4,000 square foot replacement 0.5 million gallons per day ultra filtration water treatment plant (WTP) at the Camanche South Shore Recreation Area (CASS); approximately 6,200 linear feet of new raw water pipeline to provide raw water from the Mokelumne Aqueducts No. 1 and 2 to the new treatment plant; approximately 13,700 linear feet of new treated water pipeline from CASS, and 2-1,700 gallons per minute supply pumps providing water across Camanche Reservoir to the existing Camanche North Shore Recreation Area (CANS) water storage tank.	<b>NOD</b>

2001081003	Riverside Drive Storm Drain Segment No. 2 San Bernardino County Land Use Services Department Ontario--San Bernardino Segment No. 2 of the Riverside Drive Storm Drain is needed to provide additional watershed protection to safeguard lives and protect the City of Ontario Agricultural Preserve from existing flood hazards.	<b>NOD</b>	
2001081054	City of Madera Municipal Airport Runway Protection Zone IS/ND Madera, City of Madera--Madera Abandonment of a section of Avenue 16 within the Runway Protection Zone of the Municipal Airport and construction of an east and west roadways to serve as a by-pass to the abandoned section of Avenue 16. The proposed roadways will be constructed to City Standards and Specifications for collector streets.	<b>NOD</b>	
2001082096	Slate Creek Diversion Sediment Pass-Through Project Oroville-Wyandotte Irrigation District --Plumas Oroville-Wyandotte Irrigation District plans to pass gravel, cobble, and sediment through their Slate Creek Diversion Dam during winter storm events in order to clear material from the vicinity of the project structures (valves, trash racks, tunnel, etc.). Sediment accumulation peaked during a 1997 storm event, and threatens the project structures and minimum fish flows. The sediment pass-through events will be part of normal maintenance of the hydro project, subject to monitoring and various permit requirements.	<b>NOD</b>	
2001099055	Richard Lantis Residence, STP 01-045, Log No. 99-08-004 San Diego County Department of Planning and Land Use --San Diego The project proposes the construction of a single-family residence. The property is zoned A70, Limited Agricultural Use Regulation and is in General Plan Designator (18) Multiple Rural Use. The project site is located at 26064 Mesa Rock Road (APN 187-020-52) in the Twin Oaks and Hidden Meadows Sponsor Group Areas. This case has been reviewed pursuant to the Zoning Ordinance, the I-15 Corridor Scenic Preservation Guidelines and the California Environmental Quality Act.	<b>NOD</b>	
2001098450	Proposition 204 Grant for Staten Island Acquisition Resources Agency, The --San Joaquin Grant of Prop. 204 Ecosystem Restoration Program funds for acquisition of Staten Island by The Nature Conservancy. Partial funding is being provided by Department of Water Resources through the Prop. 13 Flood Corridor Protection Program. This project includes fee title acquisition, a conservation easement, start-up stewardship tasks, participation in planning, and potential acquisition of the reserved mineral estate.	<b>NOE</b>

2001098451	San Jacinto Wildlife Area, Expansions 15, 16, 17, 18, 19. Fish & Game, Wildlife Conservation Board Moreno Valley--Riverside Protection of wildlife habitat and endangered species.	<b>NOE</b>	
2001098454	Petition for Extension of Time State Water Resources Control Board --Napa On January 26, 1996, the State Water Resources Control Board, Division of Water Rights (Division) issued Permit 20820 to the William Hardin Trust to build the project proposed in Application 30118. The permit planned to construct three 49-acre-foot (af) onstream reservoirs and two 49 af offstream pit type reservoirs. Water is collected from three unnamed streams tributary to Pope Creek and directly from Pope Creek. The combined rate of diversion from Pope Creek may not exceed 10 cubic feet per second. The water appropriated under this permit is used for stock watering, hay production, irrigation of wine grapes, frost protection and heat control within the vineyards, incidental domestic use and recreation. The project is located in Napa County and includes 258 acres within sections 11, 14, 15, 22, and 23 all within T9N, R5W, MDB & M as shown on maps on file with the Division. The time to complete construction ended on December 31, 1998. The time to complete full beneficial use of water ended December 31, 1999. In 1998, the permittee filed a petition for extension of time to complete construction in 2008 and full beneficial use in 2009. The Division has determined not to issue an order approving the full amount of additional time requested in the petition. Full development and use of water must be completed by December 31, 2006.	<b>NOE</b>	
2001098455	Construction on East California Avenue between 400 feet west of Washington Street and 300 feet east of Webster Street Kern County Bakersfield--Kern The work to be performed consists, in general, of reconstruction of median curbing; installing median landscaping and irrigation system; modifying existing traffic signals; installing a new traffic signal; installing a signal interconnect system; constructing drainage improvements; and constructing concrete curb, gutter, sidewalk, and wheelchair ramps. This section of highway is in an area of needed rehabilitation. Traffic signal installation and modification, and installation of interconnect system will alleviate congestion, vehicle emissions, and degradation of air quality. The project will beautify and enhance the level of service of the road for the general public.	<b>NOE</b>	
2001098456	Agreement No. R4-2001-0056; Unnamed Tributary to Sullivan Creek Fish & Game #4 Sonora--Tuolumne Place 165 linear feet of 48-inch diameter culvert into the streambed of an unnamed tributary of Sullivan Creek. The culvert will be connected to existing culverts contiguous to this Project. The streambed will be filled with approximately 2,000 cubic yards of clean fill material that will be imported to the site. A catch basin will be constructed at the terminal or downstream (south) end of the newly installed culvert. Best management practices will be implemented during and after construction to minimize downstream impacts.	<b>NOE</b>

2001098463	Driveway Improvement at 7231 Walnut Avenue, Orangevale. Fish & Game #2 --Sacramento Streambed Alteration Agreement R2-2001-421 pertains to a driveway improvement project. Authorized activities include the replacement of an existing 36-inch culvert pipe with three 36-inch culvert pipes to eliminate flooding at the stream crossing and improve access to the residence.	<b>NOE</b>	
2001098468	WITCO Oil Sludge Pits Closure Plan Approval (EPA ID 080018658) Toxic Substances Control, Department of --Kern Approval of a Closure Plan that involves minor excavation and a health-risk based closure to industrial standards of previously treated surface impoundment residue. The excavation will be approximately 200 cubic yards of soil containing acidic oil sludge (tar) layers in the soil are approximately 6 inches thick at depths of from 2 to 10 feet below grade. The soil above the tar will be stripped off and segregated. The tar will be visually identified as black asphaltic material and placed in roll-off boxes lined with 6 mm prefabricated polyethylene liner. The roll-off boxes will be transported under manifest to an approved hazardous waste disposal facility. Water sprays will be used to control dust. Air monitoring will also be conducted to assure particulates are controlled. The segregated soil will be replaced and clean fill will be added to bring the excavation to surface grade. The areas will be compacted to 90% of maximum dry density. Air monitoring of the work site and of personnel is required. Workers will be at a minimum Level D personal protection with upgrades to Level C/B depending on air monitoring results. In addition to acidic sludge, polynuclear aromatic hydrocarbons (PAHs) exist in the soils that will not be removed.. The PAHs are located at an average of 12.5 feet to a maximum of 28 feet below grade.	<b>NOE</b>
